Great resource

By Doug Erlandson

I acquired Frederick Copleston's "A History of Philosophy" more than 40 years ago when I was a graduate student in philosophy at Johns Hopkins. (My, how times have changed. The individual volumes have a prices on the cover of anywhere from 95¢ to \$1.25.) I have used this multivolume history frequently ever since. Whether I have wanted to find information on some aspect or other of the thought of a particular philosopher or when I have wanted to get an overview of a particular period in the history of philosophy, I have turned to Copleston. There is no philosopher of any consequence or any aspect of that philosopher's thought that is too minor to not at least receive a mention by Copleston. His knowledge of the history of philosophy is encyclopedic. While I also highly recommend using primary-source material to gain a fuller knowledge of the thought of any philosopher, Copleston is a great starting point if one wants an initial overview before plunging into a philosopher's works in more depth. Of all the histories of philosophy available, this is certainly one of the best and the most complete.
