CLINICAL CASES AND OSCES IN SURGERY, 2E (MRCS STUDY GUIDES) BY MANOJ RAMACHANDRAN BSC(HONS) MBBS(HONS) MRCS(ENG) FRCS(TR&ORTH), MARC A GL PDF

This book of over 140 cases is designed for candidates preparing for all surgical examinations, whether at undergraduate, postgraduate or exit examination level. It will demystify and simplify the clinical assessment of surgical cases and provides invaluable advice on how to achieve success. The text includes top tips, acronyms and up-to-date summaries of current practice based on the authors' personal experience of surgical examinations.

- Cases are graded in terms of likely appearance in the examinations.
- Top tips emphasize specific subjects which cause confusion.
- The text provides advice on the most appropriate time to finish an examination.
- Examples of the common procedures and props that come up in the skill-based examination format are included.

- This fully revised Second Edition is now in colour and includes photographs of key manoeuvres performed during specific surgical examination routines
- Includes a new section on communication skills
- A new co-author in academic surgery joins the project.

Clinical MRCS OSCE

By MQu

Nicely divided up into the relevant sections with highlighted importance levels. This is all you need for the clinical examination. Do not seek larger textbooks and do not study for the clinical until you have passed the oral viva first. This is by far the best book out there for the clinical inter-collegiate OSCE.

GREAT BOOK FOR SURGERY ROTATION AND BEYOND

By Ali

I found this book very helpful for surgical OSCEs. you can find every possible OSCE case (except cervical spine examination and digital rectal examination) and it makes you prepared for the OSCE. Also, i found the questions at the end of each case very helpful and they boost your knowledge, although some are above the level of a student but you will enjoy it.

1st reference for the whole college.

By syukri23

my whole college mates, if not all, most of them using this book their 1st reference for the OSCE just now -PMC-RCSI/UCD twinning programme-

i am still looking for OSCEs reference in Ophtal and ENT that is as good as this book.
