Current Issues in Nursing

By S. Nunez

I am a grad student working on my master's in nursing. This is a required book for the curriculum but even if it wasn't, I would probably buy it for my personal use as an educator in the hospital. It serves to enrich my knowledge in many areas of nursing.

Book for class

By Ashley

This was a required book for my class. It has a nice layout with summaries in front of each chapter. It does talk about specific types of advance practice nurses along with RNs. It is a nice summary for what the different APNs do along with the issue they face.
