This book was wonderful. Although the book is fiction, it seems quite realistic. The central characters are a young man and a young girl who fall in love. Their love is unconventional and quite unique. The author describes each of their two families and how they live with great detail. The best part of the book, in my opinion, is the garden scene when Cynthia and Zorobabel first kiss. The book provides insight into the Haitian culture as well. I would highly recommend this book to other readers. - Shane Carter

This book is a must read! I actually have read it three times and my friends as well. It is an honor to know that there are wonderful writings out there by Haitian authors. Rodene illustrates many controversial themes and ideas in his book! I am looking forward to the next book that he writes. This book would be great for different classes, book clubs as well as reading for pleasure. Please support him by reading it and hopefully one day, I will be able to meet him in person!
