Freeman](#) to be in your gadget could make ease the readers. So by doing this, be a good visitor currently!

Review

"What sets this book apart is the sheer comprehensiveness resulting from almost four decades of research and refinements through seven editions. It is suitable for use in teaching senior undergraduate and graduate students in a range of fields and disciplines as well as experienced evaluation practitioners. It is also useful to those who are interested in resolving, or being able to understand and address theoretical and methodological issues that are inherent in any evaluation study." (Daniela C. Schroter, Western Michigan University 2006-01-25)

About the Author

Mark W. Lipsey is the Director of the Center for Evaluation Research and Methodology, and a Senior Research Associate, at the Vanderbilt Institute for Public Policy Studies (Ph.D. in Psychology from The Johns Hopkins University in 1972). His professional interests are in the areas of public policy, program evaluation research, social intervention, field research methodology, and research synthesis (meta-analysis). The topics of his recent research have been risk and intervention for juvenile delinquency and substance use, early childhood education programs, and issues of methodological quality in program evaluation research. Professor Lipsey serves on the editorial boards of Evaluation and Program Planning, Psychological Bulletin, the Journal of Experimental Criminology, and the American Journal of Community Psychology, and boards or committees of, among others, the National Research Council, the Department of Education What Works Clearinghouse, Campbell Collaboration, and Blueprints for Violence Prevention. He is a recipient of the American Evaluation Association's Paul Lazarsfeld Award, the Society of Prevention Research's Nan Tobler Award, a Fellow of the American Psychological Society, and co-author of the program evaluation textbook, Evaluation: A Systematic Approach and the meta-analysis primer, Practical Meta-Analysis.

Freeman

EVALUATION: A SYSTEMATIC APPROACH, 7TH EDITION

BY PETER H. ROSSI, MARK W. LIPSEY, HOWARD E. FREEMAN PDF

Since Peter H. Rossi, Mark W. Lipsey, and Howard E. Freeman first published *Evaluation: A Systematic Approach*, more than 90,000 readers have considered it the premier text on how to design, implement, and appraise social programs through evaluation. In this, the completely revised Seventh Edition, authors Rossi and Lipsey include the latest techniques and approaches to evaluation as well as guidelines to tailor evaluations to fit programs and social contexts.

With decades of hands-on experience conducting evaluations, the authors provide scores of examples to help students understand how evaluators deal with various critical issues. They include a glossary of key terms and concepts, making this the most comprehensive and authoritative evaluation text available.

Thoroughly revised, the Seventh Edition now includes

- * Substantially more attention to outcome measurement
- * Lengthy discussions of program theory, including a section about detecting program effects and interpreting their practical significance
- * An augmented and updated discussion of major evaluation designs
- * A detailed exposition of meta-analysis as an approach to the synthesis of evaluation studies
- * Alternative approaches to evaluation
- * Examples of successful evaluations
- * Discussions of the political and social contexts of evaluation

Not a graduate level book: too many stories, needs more depth

By Stephanie

Too many stories and not enough depth. Might be great for a VERY simple introduction and for someone who loves tons of examples, but I found myself skipping half the book and wanting more in-depth details. Maybe it would work for an undergrad class, but definitely not a graduate level book.

Textbook Evaluation: A Systematic Approach

By Southern Yankee

This is a book my daughter needed for school. It is exactly the book the professor required for the course, and it provides valuable information pertinent to the course of study.
