Dead of night. Salonika, Greece, December 1939. A clandestine order of monks embarks on a desperate mission: to transport a mysterious vault to a hiding place high in the Italian Alps. Its sinister contents, concealed for centuries, could rip apart the Christian world. Now, as the Nazi threat marches inexorably closer, good men and evil will be drawn into a violent and deadly hunt, sparking a relentless struggle that could forever change the world as we know it.

"His most ambitious novel. Its twists and turns carry the reader on a fast bobsled run...A marvelously unflagging imagination." -- The New York Times

Dust to dust...

By L. Laurent

Interesting concept, based on a possibility that one of Christ's disciples wrote a letter from prison claiming the Christ didn't die on a cross, but survived for three days and then committed suicide. And that this letter had been preserved and hidden for nearly three millennia by a small sect of monks who knew that its revelation would destroy two of the major tenets of the Christian faith: the martyrdom of Christ, and its most

powerful symbol, the cross. Ludlum turned this into a very long and complicated book, based on a WWII intrigue and complete with its own modern day Cain and Abel story near the end.

I thought *The Gemini Contenders* was a good read, but ultimately disappointing because, obviously, the ancient letter never sees the light of day. Therefore, the basic tension of the novel - a revelation that could destroy the foundations of Christianity - turns to dust.

Entertaining and Thought Provoking...

By C. Morrison

I have owned several copies of this book over the years. I have now read it, seven times. It's that good!

Long before the "da Vinci Code", there was the "Gemini Contenders". Without going into ANY of the plot's details, I will say only that it is a well written, religious theory based story. One of those books that you cannot put down.

Sorry, but I don't want to ruin it for you!

Not good at all

By ElenaHNL

This book should have been a series as opposed to one book. Even though it is relatively short, I found it hard to finish. It spans over 35 years and so many characters that by the time you finish it feels like you've been through several books just to find out what happens (which you never really do). Several times I felt like the book is ending (good guy wins, bad guy loses) just to dive into a whole other story. All in all, I found it a painful read, and the first Ludlum book I did not like.
