Policing has experienced something of a crisis worldwide. With allegations of excessive use of force in the USA, corruption scandals in Australia, racial tensions in Britain and sex crimes in Belgium, never has it been under greater public scrutiny. Examination of police organizations through a gender looking-glass reveals the inadequacies of analyses offered by research approaches that left women out of the frame. The book raises vital issues about law, order and the achievement of change in criminal justice policies. It provides a thorough analysis of the current state of research on the topic, as well as new data on nations from every continent, and it proposes an innovative framework for analysis. Finally, it uncovers fascinating personal stories and lost texts that chart the victories won by forgotten or overlooked pioneers who developed women's contribution to, and changing practice in, policy worldwide. An important work

By Marion E. Gold

This is an important book that helps us prepare for a future where we recognize and appreciate the great strengths women bring to law enforcement. By understanding the global perspectives of women in law enforcement, we can begin to eliminate the stereotypes and encourage the entry and success of more women into this noble profession.

Women Police Internationally

By Dorothy M. Schulz

One of very few books describing the experiences of women police across national boundaries. Based on the authors' extensive research and interviews with women police officers, this book provides readers with a finely drawn picture of the roles women play in policing around the world.
