Much has been written about the British aircraft of World War One, but little has surfaced about the aircraft of the Axis powers, Germany and Austria. Here, Terry C. Treadwell tells the story of the aircraft from companies such as Fokker, builder of the famous triplane, as flown by Baron von Richthofen's Flying Circus, AEG, Albatross, Junkers and Hansa. From reconnaissance aircraft to state of the art bombers that could reach London, this is the definitive guide to aircraft of the Axis powers during World War One.
