In a brief presentation full of memorable quotes, a leadership expert expands material in a previous book on the importance of thinking. Narrator Chris Sorenson has the sensibilities and vocal charm to convey Maxwell's message that life is more rewarding when we think more intentionally and carefully. His reading sounds calmly inspirational but has enough zip to add some welcome intensity to the author's low-key wisdom. Along with his trademark optimism, the author delivers a solid analysis of how to use 10 different types of thinking, which include creative, reflective, strategic, and unselfish cognitions. This is an effective

combination of heartfelt encouragement and thorough details on thinking habits that anyone can adopt to get more out of life. T.W. © AudioFile 2010, Portland, Maine

You must out think your competition

By Skip Freeman

In today's competitive global marketplace, to win we must outwit, out maneuver and out think the competition. The world changes daily and new thinking is critical to success in both one's personal and professional life. Dr. Maxwell reminds us of a statement made by Albert Einstein, "Thinking is hard work; that's why so few do it."

What Dr. Maxwell does is show us how to make successful critical thinking a daily habit. That, of course, isn't going to happen just by reading this book. It is going to happen because one uses this book daily as a "hand book." It is the right size to easily keep with you in your computer case, keep on your desk and to grab and thumb through revisiting ideas and points on a consistent basis.

I bought a copy for every member of my team. We have been going over a chapter a week in our sales meetings. I recommend it for all sales professionals, managers, entrepreneurs...anyone who wants to up their game!

Disappointed in this purchase, read Covey instead

By HarrisonFjord

I was really disappointed when I received this book. First of all, it is not a full size book, but rather a mini book, which I found super irritating. Second, it was full of gimmicky advice and ended up donating it to a local library.

I realize that most self-help books are not one size fits all, so it makes sense that most would provide general advice that you can cherry pick and apply to your own life situation. However, Amazon recommended this to me based on my browsing history and interests. I am very disappointed and suggest you purchase the Covey book, 7 Habits of Highly Effective People or What the Most Successful People Do Before Breakfast instead.
