INTERNATIONAL RELATIONS THEORIES BY TIM DUNNE, MILJA KURKI, STEVE SMITH PDF

Written by leading figures in the field, the third edition of this successful text provides an up-to-date and comprehensive account of all the major theories of international relations, supporting them with case study examples.

While some of the theories discussed are complex, the authors convey them in a clear and accessible manner, with the use of engaging pedagogical features, making this an ideal introduction to international relations theories. A new chapter on Critical Theory has been added to allow more coverage for this approach and alternative understandings, such as post-colonialism and environmentalism, have chapters devoted to them, unlike other textbooks. Chapters have also been updated to reflect recently published work and the case studies have been revisited to include considerations of new developments in world politics.

Online Resource Centre

The text is accompanied by an Online Resource Centre providing additional resources for lecturers and students.

Lecturer resources:

PowerPoint slides
Figures and tables from the textbook

Student resources:

Web links
Flashcard glossary
Revision guide

An excellent source for understanding IR theory

By william merop

An excellent source for understanding IR theory. I used this a lot as a student and still refer back to it from time to time.

Great text. It got me through my University of ...

By Veros

Great text. It got me through my University of Florida International Relations class without a hitch. I would definitely recommend to anyone interested in the topic. Very thorough however you can tell it is slightly biased as it is written from a constructivist point of view. That being said, it still does a very good job of describing different theoretical perspectives.
