LIVING ALTERITIES: PHENOMENOLOGY, EMBODIMENT, AND RACE (SUNY SERIES, PHILOSOPHY AND RACE) FROM STATE UNIVERSITY OF NEW YORK PRESS PDF

Philosophers consider race and racism from the perspective of lived, bodily experience.

Broadening the philosophical conversation about race and racism, *Living Alterities* considers how people's racial embodiment affects their day-to-day lived experiences, the lived experiences of individuals marked by race interacting with and responding to others marked by race, and the tensions that arise between different spheres of a single person's identity. Drawing on phenomenology and the work of thinkers such as Frantz Fanon, Maurice Merleau-Ponty, and Iris Marion Young, the essays address the embodiment experiences of African Americans, Muslims, Asian Americans, Latinas, Jews, and white Americans. The volume's focus on specific situations, temporalities, and encounters provides important context for understanding how race operates in people's lives in ordinary settings like classrooms, dorm rooms, borderlands, elevators, and families.
