One of My Favorites!

My copy was fairly worn out so I needed a new one. Great condition and a better cover. Love it.

Just the facts.

By J. Halvorson

For a quick biblical reference book, this one is hard to beat. Simply stated, this book breaks topics of religious significance and links them to biblical references, as well as LDS references. There is very little 'opinion' given in this book; just facts, condensed and blunt.

If you are not LDS, simply discount the references to the Book of Mormon, Doctrine and Covenants and Pearl of Great Price and use scriptures from both the Old and New Testaments. I think you'll be amazed how much you may have in common with the Church of Jesus Christ of Latter Day Saints.

Be warned, this book does not pull punches. When a church takes a stance counter to the Bible; this book calls them on it, with a listing of scriptures to drive the point home. If you feel the need to debate a concept of Christian doctrine, this point is either your best resource, or your worst enemy. No opinion is needed, the Bible has the argument written down, for all to see. This book simply indexes the verses with the various concepts.
