NASA, NAZIS & JFK BY WILLIAM TORBITT, KENN THOMAS, FIRST LAST PDF

In 1970 a photocopied manuscript began circulating among conspiracy researchers entitled 'Nomenclature of an Assassination Cabal' by William Torbitt (a pseudonym). The Torbitt Document was a damning expose of J Edgar Hoover, Lyndon Johnson, John Connally and Werner von Braun, among many others, for their role in the assassination of President John F Kennedy. This first published edition of the Torbitt Document emphasises what the manuscript says about the link between Operation Paperclip Nazi scientists working for NASA, the Defence Industrial Security Command (DISC), the assassination of JFK, and the secret Nevada air base known as Area 51. The Torbitt Document illuminates the darker side of NASA, the Military Industrial Complex, and the connections to Mercury, Nevada, and the Area 51 complex which headquarters the 'secret space programme'.

An Important Historical Record

By Dr Stuart Jeanne Bramhall

For me the important question has always been who paid for the Kennedy assassination. As with any "hit" what matters is who puts up the money - not who fires the actual shots. This book definitely answers this question to my satisfaction, with good documentation linking to original sources. William Torbitt was actually a pseudonym for a former prosecutor and Lyndon Johnson insider named David Copeland. As the author explains in his introduction, he bases his information on public sources - mainly the 26 volumes of Warren Commission testimony, Who's Who in the South and Southwest (1963 and 1964), public records from the corporate records departments of Italy and Switzerland and Parish of New Orleans records of District Attorney Jim Garrison's grand jury investigation of assassination co-conspirator Clay Shaw.

Shaw had been one of the incorporators of the Permindex, the Swiss shell corporation Torbitt credits with financing the assassination. According to Swiss corporate records the principal shareholders of Permindex in 1963 consisted of a number of US oil corporations and defense and NASA contractors, ex-Nazi general Walter Dornberger and his company Bell Aerospace, Credit Suisse of Canada, Heineken's Brewery of Canada, Pan American World Airways and its subsidiary Intercontinental Hotel Corporation.

Torbitt also goes into considerable detail regarding the line of command for carrying out the assassination and coordinating the cover-up. At the top was a secretive entity called the Defense Industrial Security Command - a joint collaboration between the Defense Intelligence Agency and FBI Division 5, a secretive counterinsurgency operation personally directed by J. Edgar Hoover. L.M. Bloomfield, the long time covert operative Hoover designated to oversee planning and coordination, enlisted various CIA entities to undertake specific operational details. However, according to the scenario Torbitt lays out, the JFK assassination was neither ordered nor organized by the CIA.

The part of the book that most intrigues me is where Torbitt describes an interview Garrison had with Emilion Santana, one of the actual assassins. Santana admitted firing shots from the Dal-Tex Building across from the School Book Depository. Santana confirmed that he had been employed by Clay Shaw and that Jack Ruby and Shaw were friends and made trips to Cuba together related to an arms smuggling operation they ran. Santana also stated that he was an employee of Double-Chek, a CIA front company used to recruit pilots for gun running operations, and an "agent" for the Central Intelligence Agency.

The Smell of Truth

By Herbert L Calhoun

This book, although somewhat cryptically written--in the uncomfortable vernacular of JFK assassination research buffs--nevertheless is in my estimation a valuable addition to JFK assassination research. Anyone who is up on this literature has to have a good "crap detection" system, and this selection seems to have passed the test with flying colors. Since the early 70s, all serious roads to discovering who killed JFK seem to be leading back to tying up the loose ends left by the Jim Garrison New Orleans investigation. And since there were many such loose ends to tie up, doing so is not a small job. Torbitt has hit pay dirt, and at the very least, pushes Garrison's investigation to the next research frontier--if not to the very edge of completely uncovering the assassination plot. Yet, there are questions this research raises itself. For instance, I am not yet convinced of the Nazi connections--even though there is much circumstantial evidence to support Torbitt's point of view. Despite my misgiving, this piece is coherent in the extreme and can stand on its own. We know that when the conspiracy is finally uncovered, the truth will have its own unmistakable context, and this book has the "smell of truth."

This JFK Book Names the Names

By Larry Rochelle

THE TORBITT DOCUMENT names the people responsible for the JFK assassination and it has a good index, much to the reader's delight. When folks who believe that Oswald acted alone challenge you to name the names, now you can do it.

So, who planned it and who profited?

1. J. Edgar Hoover and the FBI
2. Werner Von Braun and NASA
3. Carlos Prio and the Anti-Castro group in Miami
4. Carlos Marcello and the Mafia

5. George de Mohrenschildt and the right-wing White Russian Solidarists
6. Lyndon Johnson and the right-wing Oil Cartels

And, who shot Kennedy?

1. William Seymour, using a 7.65 mauser, Book Depository
2. Jim Braden, Dal-Tex buiklding
3. Albert Osborne
4. Fred Chrisman
5. Manuel Gonzalez, behind the fence
6. Logistics team, practicing in Mexico, back-up team of 15+

Why was JFK shot?

1. He stopped the anti-Castro right-wing and gamblers return to Cuba.
2. He stopped the Cold War.
3. He ruined profits for the Mafia-munitions industry.
4. He cracked down on Carlos Marcello and the mob.
5. American Nazis who escaped to the USA and their supporters wanted him dead.
6. The Joint Chiefs of Staff wanted him dead.
