2008 Eisner Comic Winner!

Street urchins Black and White have skyscraper-sized chips on their shoulders, but are fiercely loyal to each other. Black is especially quick to avenge any slight against his dim-witted pal. The result? The citizens of Treasure Town are afraid of them, the police are afraid of them--even the local yakuza gangsters are afraid of them! But when the crime boss known as the "Rat" returns to Treasure Town, it looks like there's gonna be a rumble...

The violence in this unique European-influenced manga title is more mindful than it seems at first glance, and the subtle relationships between its unique cast of characters are marked by surprising poignancy.

Anime is more my style

By Thirdman

I preferred the anime's energy, but this original work exaggerates (in a good way) the political nature of the

piece and its characters.

15 of 16 people found the following review helpful.

Gorgeous, absorbing graphic narrative

By zinegrl

During a trip to Japan recently I came across the film version of this book, which had just won many awards. When I learned it was based on a graphic novel, I scoured the bookstands here in the US for it to no avail. Luckily Amazon had it (along with the English-subtitled movie). Tekkon Kinkreet is a richly engaging graphic narrative, its visual language referencing French comics but with the horizontal, angled paneling of more traditional Japanese Manga. Though it's about two scrappy kids, this is most definitely NOT a comic book for children: it's full of violence and references to the seedy underworld of the city (gangsters, strip clubs, etc.). Though those things would usually turn me off, I found this to be a completely absorbing narrative. Beyond the violence it elegantly explores the issues of gentrification, friendship, identity, and change. The film's great too, but you should definitely read the book first. Totally different visual styles going on. Great stuff. Check it out.
