Specialist advice for your own design business - cheapest Consultant fee ever!!

By Vernon Design Group

My business coach advised me to get E-Myth not knowing Architect version was available. After being in practice for 18 years and learning the hard way to operate a business in Building Design, I only wish this book was available when i started. We are now re-building our business. Hence the business coach. If the GFC has taken a toll on your business or things are not working as well as they were, this book is for you. I'm only 1/2 way through, but i always read starts & middle bits to get the jist of whats coming.

The co-author is an architect who used the E-myth system to run his business. I certainly like to pick peoples brains to short cut any learning process.

How to run a successful design business was never a topic where i went to get my piece of paper. Learn the quick way from successful people, get the book. The cost of the book is less that an hour of your fees, and catapult yourself. As in any design project we need specialist consultants. Where else can you get specialist advise for less that \$30.
