Great Concise Writer's Reference

By Megasaurus

This was required for a writing class I took this quarter, but has proved useful in several other classes as well. The handbook is very well organized with no fluff or nonsense. Most college writing focuses on MLA style, which this book covers in excellent detail, but occasionally you will be asked to write in a different and unfamiliar style and at that time, this book will come to the rescue. I was able to write a history paper in Chicago style with the help of the Little Seagull.

Additionally the book has an online website for reference and further details, with complete sample papers in all the styles, that you can explore in depth. I used the website resource on multiple occasions this last quarter and my papers benefited from the attention to detail on style.

Finally, the greatest benefit of the Little Seagull Handbook is that it is in fact, little. It is small, compact and light as a feather, which is a godsend to all of us students who are already carrying around too much weight in our backpacks. Its light enough that I don't mind bringing it around 'just in case' I need it, although I would prefer a kindle edition to reduce the weight even more. Highly recommended!

Handy Handbook!

By Claire J.

this is a very useful handbook. everything you need to guide you write a paper in class is in here! try this! you'll love it! even those who hate to write essays will love writing those essays as long as they have this!
