Great stories for those just beginning to read

By K. Klaus

This book is the first in a series about a young girl whose pony just so happens to turn into a unicorn each night when she recites the magic spell. We began reading these to my daughter a few months ago and have accumulated as many of the books in this series that we could find. The stories are completely appropriate for young children (5 and up). I really like how the author incorporates real-life subjects into the stories as well. For example, the main character, Lauren, deals with the issues of friendships, peer relationships and family dynamics.

I would highly recommend this series for younger children and The Secret of the Unicorn Queen series to those children 10 and up.

Perfect for Pony-Lovers

By A. Rider

Perfect book for my 6 year old that loves ponies, unicorns and anything related. We read it together at bedtime, large chapter books are a little big for her still, but the content is understandable for a 6 year old and it is well-written. We will be continuing to get more from the series.

The Magic Spell

By RLFlynt

My 7yr old daughter loves everything equine, even if it's mythical. These series of books are enjoyable and easy to read aloud to her.
